INSTA

I N S T A - C A L C TM

INSTA-CALC is an entry level financial SPREADSHEET program designed for home or personal use. No previous computer knowledge is required to operate the system. A step by step tutorial manual with computer generated "HELP SCREENS" teach you to set up, change/modify, store and print your own spreadsheets.

Calculate

Home management "grids" with expenses, income and totals can quickly and easily be calculated. If you change one number in your spreadsheet with a press of a key all numbers are **automatically** recalculated and displayed or printed.

Educational

INSTA-CALC is the perfect "first time" spreadsheet program. It helps teach the fundamentals of personal

financial management with a "built-in" home expense model that shows you how to set up algebraic and arithmetic formulas quickly and easily. Even advanced capabilities such as exponentiation, and integer arithmetic are easy to learn.

STANDARD FEATURES

- 20 columns by 30 rows (600 cells) grid size
- PROTECTED formula cells eliminate loss of data
- Oversized label field allows large HEADINGS
- Copy, insert or delete rows and columns
- Replicate cells (relative or absolute) in rows and columns
- Complete cursor control with GO TO commands
- Full use of FUNCTION KEYS
- Up to 25 spreadsheets may be SAVED to a diskette

Cut & Paste

Partial spreadsheet "windows" may be "cut" from one spreadsheet and "pasted" to another. Windows may be SAVED to diskette and called up on demand.

Instant Graphs

Creating bar and line graphs and charts requires just a few steps when **INSTA-CALC** is integrated with **INSTA-GRAPH**.

Cartridge Convenience

Plug in the cartridge, insert the diskette, press the RETURN KEY, press "F3" and start typing. Comes with cartridge and diskette.

INSTA-CALC. Excellence in financial spreadsheet education, function and self improvement.
