The Print Shop GRAPHICS LIBRARY®

Special Edition Instructions

Introduction:

The Special Edition is a collection of over 100 graphic elements representing a selection of favorite graphics from past Print Shop Graphics Library disks, as well as a wide variety of new graphics that are appropriate for many different occasions.

Getting Started:

The Special Edition Graphics Library is easy to use. All you need is The Print Shop to get started. You will be using The Print Shop in exactly the same way as you have before. Just start up the program and follow the on screen prompts.

Using Special Edition Graphics and Borders:

Select Greeting Card, Sign, Letterhead or Banner from the Main Menu of The Print Shop, or the Calendar feature from The Print Shop Companion. When you reach Choose a Graphic or Choose a Border, select From Other Disk. Insert the Special Edition disk into the appropriate drive and follow the prompts.

Commodore Note: As with the original Print Shop program disk, use Side A of the Graphics Library (disk label side up) if you are using a non-Commodore printer. Use the Graphics Library disk side B (label side down) if you have a Commodore VIC-1525 or MPS-801 graphics printer connected directly. Note also that Commodore VIC-1525 and MPS-801 printers will produce finished graphics that may vary slightly from those shown on the reference card.

Using Special Edition Full Panel Designs:

At the Print Shop's Main Menu, select Screen Magic. When you reach Select Activity, choose Get Screen. Insert the Special Edition disk into the drive and follow the prompts.

Apple IIGS Note: Full panel designs for the IIGS can be used in Greeting Cards and Signs. Simply select Full Panel Designs from the Panel Type Menu and then choose the design you want when prompted by the program.

Modifying Special Edition Graphics:

You can also modify your new Print Shop graphics with the Graphic Editor and then save them to another data disk. After selecting Graphic Editor from either The Print Shop or The Print Shop Companion, type CTRL-G, then highlight From Other Disk and follow the prompts.

Installing IBM Special Edition on a Hard Disk:

If you wish to install The Print Shop Graphics Library Special Edition onto your hard disk, start your computer using your DOS disk. When you see the A> prompt, remove the DOS disk and replace it with the Graphics Library Special Edition. Type Copy *.* C: after the A> prompt, then press Enter (↵).

If you are installing the program into a sub-directory on your hard disk, type the drive letter, a colon, a back slash, and then the sub-directory name (for example, C:\tools).

Using IBM Special Edition Graphics from a Hard Disk:

If you have installed your Special Edition graphics onto your hard disk, you may use them in the following way: When Choosing a Graphic, select FROM DISK. A listing of the Graphics Libraries on your hard disk will appear. GRDATA will also be listed at the top if you have created or modified graphics with the Graphic Editor and saved them to your hard disk. Highlight GRLIBSE and press Return. A list of the Special Edition graphics will appear.
