# THE IMAGE SYSTEM

A computer graphic package with a difference! In addition to providing the usual drawing and painting facilities **The Image System** allows you to create your own text fonts. Zoom, move, copy, scale, rotate and even fold your pictures in 3D space. Pictures

produced can be controlled from basic adding graphic flair to your programs. **The Image System** is without doubt the most advanced graphic package so far. You will find an explanation of the

features mentioned, and much more in the comprehensive manual which accompanies this program.
